Current Activities

During this reporting period approximately 13 gals of oil and 682 gals of contaminated water were retrieved. The new updated totals are now as of May 6, 2008: 4,427 gals of oil and 49,041 gals of contaminated water.

No monitoring of soils was conducted this reporting period. The next soil monitoring event will be on August 5 and 6, 2008. Soil gas is monitored monthly at each of the 14 monitoring point locations. The data indicate that oxygen is readily being consumed within the treatment area.

No problems were encountered during this reporting period.
